- Web Development: [HTML, CSS, React, Node.js]
- Database Management: [MySQL, MongoDB, Oracle]
- Tools & Platforms: [Git, Visual Studio/Code, Crystal Reports, AI Tools]
- UI / UX : [Adobe Photoshop, Figma]

WORK EXPERIENCE

Computer Programmer
Newborn Screening Center Southern Luzon, January 2024 - Now

The role encompasses creating applications in response to employee requisitions, diagnosing and resolving hardware and software malfunctions within the corporate environment, and undertaking all tasks pertinent to information technology operations.

It Support (Monitoring)
Star Tollway Corporation, Feb 2023 - July 2023

This role encompasses CCTV-based traffic and accident surveillance operations, comprehensive management of the stalled vehicle database—including the addition, modification, and removal of record and the utilization of Microsoft applications and database platforms for detailed data evaluation and analytical reporting.
